2024 BANQUET MENU

General Catering Considerations for Hosts:

On average your guests will eat 5-7 appetizers during the first hour of a party, then eat approximately 3 appetizers (per person) each subsequent hour. If your event falls during lunch or dinner hours and you prefer not to serve an entire meal for your event, please consider serving a selection of the heavier appetizers.

Country Club Estimated Guest Count Billing Policy:

An estimated guest count (ETA) is required at the time your event is booked. The final guest count (FTA) is due no later than 14 days prior to the event. Please note that on that day the number of guests attending your event becomes finalized. Food and other arrangements shall be prepared for the most recent number of guests provided us and will be billed accordingly. Please note that all food ordered for your event (including any uneaten portions) is strictly forbidden to leave our premises per food safety law and Health Department regulations, thank you.
